We love to talk flute !

Don't be misled by its cool,
streetwise appearance,
or it's amazing price (starting at \$1,195)

The new line of Guo flutes are serious instruments.

The light "new voice" and denser "Grenaditte" offer a variety of tone colours to suit all from free, expressive jazz to a full baroque/wood sound and all stops in between. The New G treble flute provides a great opportunity for younger, small players to start on the flute and also the musician needing a G flute.
